

Victoria Carbone

Grand Blanc, MI | (810) 338-3098 | vicki17.vc@gmail.com | victoriacarbhone-portfolio.github.io

Environmental and wildlife-focused GIS student pursuing an Associate of Applied Science in Geospatial Science Technician with a background in ecology, wildlife rehabilitation, and conservation. Experienced using ArcGIS Pro and ArcGIS Online to create maps, manage spatial data, and conduct spatial analysis through applied conservation projects. Organized, detail-oriented, and interested in applying GIS to support data-driven decision making while continuing to grow technical skills.

SKILLS

GIS & Spatial Analysis

ArcGIS Pro, ArcGIS Online, StoryMaps, Dashboards; spatial analysis, cartography and map design, geoprocessing, geocoding, digitizing, spatial data management, data preparation, data cleaning, Python field calculations, file geodatabases, data visualization, satellite imagery analysis

Programming & Technical

Python (introductory scripting), HTML & CSS, WRMD (Wildlife Rehabilitation Medical Database), Microsoft Excel, Word, PowerPoint

Biological & Field Skills

Wildlife rehabilitation, wildlife handling and restraint, behavioral observation and documentation, data collection and record keeping, veterinary assistance, public outreach and environmental education

GIS AND TECHNICAL PROJECTS

Wildlife Rehabilitation Accessibility Analysis Across Michigan

- Used ArcGIS Pro and ArcGIS Online to compile and analyze spatial datasets representing 50 licensed wildlife rehabilitation facilities, transportation corridors, and population density.
- Applied geoprocessing, geocoding, and Python field calculations to prepare and analyze GIS data.
- Created thematic and analytical maps using cartographic design to evaluate rehabilitation accessibility.
- Developed an ArcGIS StoryMap presenting project findings and conservation implications.

Texas Wildlife-Vehicle Collision Spatial Analysis

- Used ArcGIS Pro and ArcGIS Online to compile, clean, and analyze 17,883 wildlife collision records, 158 rehabilitation facilities, transportation networks, and population data.
- Applied geoprocessing, geocoding, and Python field calculations to prepare data for analysis and visualization.
- Identified collision hotspots and evaluated rehabilitation accessibility to highlight gaps in wildlife response infrastructure.
- Developed an ArcGIS StoryMap presenting conservation and public safety findings.

Urban Wildlife Education Website

- Created educational content covering wildlife myths, humane deterrents, and conservation resources.
 - Designed responsive webpage layouts and navigation to improve accessibility and user experience.
 - Applied environmental communication principles to translate scientific information for public audiences.
-

EDUCATION

Lansing Community College | Geospatial Science Technician AAS

May 2027 4.0 GPA

- Completed Coursework: Beginning ArcGIS, Web Development HTML & CSS, Cartography in GIS, Intro to Programming - Python
- Upcoming Coursework (Fall 2026): Advanced ArcGIS, Automating Workflows in GIS, Global Positioning Systems, Parcel Mapping

Unity Environmental University | MPS Wildlife Conservation and Advocacy

May 2025 3.9 GPA

Michigan State University | BS Integrative Biology and BS Zoology

May 2022 3.7 GPA

- Concentrations: Marine Biology; Zoo and Aquarium Science; Ecology, Evolution, and Organismal Biology
- Secretary and Promotional Chair, Animal Welfare Club
- S-STEM Scholarship; Charles Drew Science Scholar Program; S-STEM Natural Science Transfer Scholar

Mott Community College | Associate of Science

May 2019 3.9 GPA

PROFESSIONAL EXPERIENCE

Rover | Pet Sitter (July 2023 – Present)

- Provide individualized in-home care for diverse animal species, including mammals, birds, reptiles, and aquatic animals, with responsibilities including medication administration, behavioral monitoring, and overnight care.
- Maintained clear written and verbal communication with clients while adapting care plans to each animal's health, temperament, and routine.
- Independently managed scheduling, client communication, and individualized animal care while building long-term relationships with repeat clients.

Fox Run Animal Hospital | Veterinary Assistant (July 2023 – Feb 2024)

- Assisted with diagnostic procedures including radiography, urinalysis, and blood testing.
- Documented animal behavior and health conditions while maintaining accurate medical records and supporting patient care.
- Assisted with animal handling and restraint during examinations and medical procedures across multiple species.
- Supported infection control by maintaining sanitation standards and sterilizing equipment in clinical settings.

Howell Nature Center | Wildlife Rehab Lead Intern (May – Aug 2021) • Wildlife Helpline Specialist (Mar 2022 – Feb 2023)

- Maintained accurate WRMD records and documented behavioral and medical observations.
- Coordinated wildlife admissions and provided rehabilitation guidance to the public.
- Administered first aid, medications, fluids, and supportive care to injured, sick, and orphaned wildlife.
- Performed independent leadership responsibilities while supporting interns in daily clinic operations.
- Captured and restrained small mammals, waterfowl, and birds of prey for medical treatment.
- Performed fecal examinations to identify parasites and other health concerns.
- Coordinated transport of wildlife to veterinary clinics and partner rehabilitation facilities.

Potter Park Zoo | Volunteer (July 2019 – Dec 2023) • Animal Care Intern (Jan – Apr 2020)

- Organized and analyzed multi-year penguin feeding datasets to support animal care planning.
- Documented feeding intake, operant conditioning responses, and behavioral responses following exhibit transitions and births.
- Developed species-specific enrichment to encourage natural behaviors and support animal welfare.
- Supported conservation education and public engagement through zoo programs and outreach initiatives.
- Completed KultureCity sensory inclusion training and supported accessibility-focused events.

ESRI MICRO-CERTIFICATIONS AND TRAININGS

Foundation of GIS

GIS Basics, ArcGIS Pro Basics, Introduction to Spatial Data, Basics of Geographic Coordinate Systems

Cartography & Visualization

Getting Started with Mapping and Visualization, Creating a Map Layout, Symbolizing Map Layers, Labeling Map Features

Data Management & Acquisition

Getting Started with Data, Management, Acquire Data for a GIS Project

Advanced GIS Tools

Accessing Satellite Data for Analysis, Using ArcGIS Pro, Introduction to ArcGIS Arcade, Introduction to AI in ArcGIS
